

EXHIBIT A

P320 - REDEFINING THE STANDARD.
**INNOVATIVE.
MODULAR.
SAFE.**

INNOVATION SETS IT APART
With its unique modular and adaptable design, the P320 gives you the freedom you want and the features you deserve.

Serialized Stainless Steel Frame: Unique design gives you the freedom to change calibers, sizes and fit, quickly and easily.

Reciprocating Trigger: A smooth, crisp trigger pull and short, tactile reset deliver heightened accuracy.

Slide-Fixed Operating System

REOLITH® Night Sights or Carbon Sights Available

CHANGE CALIBER, SIZE, AND FIT AT WILL
From compact to pistol size, to the grip fit best suited for the shooter, the P320 is the most adaptable pistol available today.

GRIP FIT

CONVERT CALIBER

9MM .357SG .40SW

Choose Size: Provides the modularity to switch between multiple sizes.

Interchangeable Grip Modules: Small, medium or large modules provide optimal grip circumference and access to controls for any hand size.

Convertible Calibers: Convert to 9mm, .357SG, or .40SW.

Integrated REOLITH® Accessory Rail: Is a MIL-STD-1915 (1913) standard rail and does not interfere with holsters and other accessories.

Multiple Pistol Sizes: Slide assemblies and grip modules are available in full-size, compact and subcompact.

SAFETY WITHOUT COMPROMISE
We've designed safety elements into every necessary feature on the pistol. From the trigger to the slide and even the magazine, the P320 won't let you shoot it.

Broken Safety: Prevents the trigger from releasing unless the trigger is pulled.

Disassembly Safety: Prevents the pistol from firing out of battery.

8-Point Take-down Safety

- Must remove magazine
- Must lock slide to rear
- Sliding bar must move for disassembly without tools or trigger manipulation

Tabbed Trigger Safety
